## PROFIL

Python developer for over 20 years. I am passionate about this programming language and have participated in numerous Python development projects.

## EXPERIENCES

---

### **Expert Python Developer, COCO Design – 2015 to present**

As an expert in Python development, I am responsible for a team of 25 developers and I manage 10 projects in parallel.

### **Python Tech Lead, SHARK Consulting – 2005-2015**

As a Python tech lead, I was responsible for leading a team of junior developers on numerous projects. I supported the team in developing the skills of junior developers and structuring the team's work to achieve the highest quality of development within the given deadlines.

### **Python Developer, STARTUP Computing, 2000-2005**

Right after my studies I started my first development work in this company where I progressed very quickly to take the position of lead developer with 5 developers in my team.

## STUDIES

**University of Honolulu, Bachelor of Engineering in Computer Science, 1999**

## SKILLS

Expert in Python, with perfect mastery of this programming language.
